The Friendly Home: Building Project News & Updates
June 23, 2008

Friendly Home Gears Up for Building Project Construction Beginning on Tuesday, June 24!

We are very pleased to announce that preparations for The Friendly Home's building addition and renovation project will begin on **Tuesday, June 24**. The first phase of this project is the construction of a 38,000 square foot addition on the south side of the existing building between The Friendly Home and Allen Creek Elementary School.

LeCesse Construction work trailers will be on-site in the upper employee parking lot as of Tuesday morning. To ensure safety and security, a chain-link fence will be set up around the perimeter of the work site and remain in place for the duration of this phase of the project, which is ex-

pected to take about ten months. During Phase I of the construction, the impact on Members, families and visitors is expected to be minimal.

A number of employees have volunteered to park at the fire station in order to minimize the impact on parking availability in the Home's front lot for families and visitors.

Please be assured that we will provide project news and updates throughout the two-year construction period. You may check the project overview and display area set up in the Living Room outside the Auditorium for information, as well as our website.

If you have questions about the project, please submit them via the Quality Assurance boxes located on each unit and outside of the Auditorium. You may also submit questions via The Friendly Home website.

This is a very exciting time for The Friendly Home, and we appreciate your understanding and patience as we move into construction. The new additions and renovations throughout the existing facility will greatly enhance the Home's living and working environment for Members and staff. We will all enjoy The Friendly Home's new and enhanced surroundings for decades to come!

Please check our website often for project updates:
